

IPH-2SP-IR robot kamera 2MP

Šifra: 6267

Kategorija proizvoda: Wi-Fi REŠENJA

Proizvođač: Partizan

Cena: **8.100,00** rsd.

Description

The video camera Cloud Robot FullHD IPH-2SP-IR 1.0 is a great decision for creating a surveillance system in an apartment, a private house or a small office. This model is equipped with a modern matrix providing a video recording in 2.0 MP FullHD resolution and a lens with a wide angle of view. There is also an infrared lighting with a range up to 10 meters to capture video in low-light environment.

You can manage the swivel module remotely. A camera can be rotated to an angle of 355° horizontally and 120° vertically. The built-in microphone is the additional advantage that will help you to provide audio monitoring on the video surveillance site. This model also supports wireless data communication technology over Wi-Fi.

The standard supply package Cloud Robot FullHD IPH-2SP-IR 1.0 includes power supply, mounting bracket, network cable and user's manual on quick installation.

The set includes:

IP camera Cloud Robot FullHD IPH-2SP-IR – 1 pcs

Power supply – 1 pcs

Mounting set – 1 pcs
